Ice Breaker Games - The Brilliant Way to Kick-start Your Events!

The smart use of a "fitting" ice breaker game at your next meeting, training or event, can turn your average "happening" into something truly memorable. Often at events, people are meeting for the first time and anything you can do to help soothe the passage of nerves quickly, the greater their experience.

Arriving at an event can often be an uncomfortable experience for some people, particularly if attending alone. Some guests get on with the job of meeting and greeting really well, but others dread the networking elements and wish for the main function to get underway rapidly

To bypass this scenario, using an ice breaker game the moment guests [Cheap Accutane](#) set foot in the room, gives them an excuse to start conversations with other guests straight away. Try this easy ice breaker game to get your event kick-started. Soon they'll be laughing, joining in and having fun.

On arrival, give guests a prepared list of people attending. This should contain contact details together with some space for more notes. Invite them to find around 5 people to talk to, and record 2 notable features about each person next to their name e.g. nice smile, blue jacket and then a few more notes about where live, work etc.

When all your guests have turned up, get people together for a quick welcome to your event, and then using the lists, have each person in turn introduce someone else to the group.

It's a really easy way to create the right atmosphere and set the tone for your event, giving people an excuse to meet and chat to at least 5 new people as well as giving them a record of attendee details to take home.

Sharon Naylor is passionate about [icebreaker games](#), and has used them extensively to have fun and quickly put people at ease in her professional training and events company, and in her social life for over 30 years. Her "how to" guide "My 4 All-Time Favourite Ice Breakers" is available free online, for a limited time, from her [icebreaker games](#) web-site.
