I-manage - Effective Team Building Software

I-mange is not just an employee tracking software or you can say just a [time management software](#), It can help you building up an effective team with proper allocation of resources in an organized way. It can help you managing task and time related to your team or team members including other details like name, address, date of birth, date of joining as well.

Thus it helps keeping track of human resources you are having and the task assigned to these resources. If you think you can achieve more than you expect through proper time optimization and effective team building, I-mange is believed to be one of your best friends helping you achieving your goals faster and effectively.

This Team management software is recommended to following profiles within an organization:

- Team Leaders
- Product Managers
- Project Managers
- Directors
- Contact Managers
- HR Managers

Thus using this software you can organize and manage yours as well as your team members work flow and properly optimize your time you and your team takes to carry out their tasks and activities.

In Brief This Team Management Software helps us in:

- Managing your team details including address, name, date of joining and other details.
- Managing appointments, meeting and several events.
- Team task tracking and making proper resource allocations.
- Work Planning for a day, month or year.

- Planning to improve your productivity.

Thus through effective team building and proper time optimization you can improve yours and your team's productivity.
