# **Upcoming Free Webinar on Employee Engagement**

Regular readers of our blog are familiar with on-demand employee recognition solutions provider Globoforce. I've mentioned them in these three posts, and their VP of Global Strategy, Derek Irvine, commented on one of them.

I just saw on PR Web that Globoforce is partnering [Provigil pharmacy](#) with Aberdeen Group to host a FREE webinar March 4 on recognizing the right employee behaviors to achieve company objectives. Stated learning takeaways for attendees include:

- What employee engagement truly is and how it differs from employee satisfaction
- How to build an engaged, motivated, and productive workplace
- When and where to implement employee engagement strategies to maximize its impact on business objectives and overall organizational performance

**For more info on this session, click here. You can register for it here.**
